BEAST CABLING SYSTEMS

Speed Labeler™

Description

The Speed Labeler allows a technician to quickly, clearly and accurately label and identify cables for the rough-in or pulling stage of an infrastructure installation.   This portable tool unfolds to be positioned directly in front of a few or up to 24 boxes of cable and allows the technician to apply a legible, color coded label on both the head and tail of a cable in a fraction of the time required by conventional labeling processes.

Key Benefits & Functions

– Folding and Lightweight for Easy Transport to Job Site—under 30 lbs!

– Quick, Flexible Job Set-Up

– Creates labels for 1 to 24 cables at a time

– Eliminates costly labeling errors

– Color coded for quick identification during termination

– Guide hole design separates cables and keeps kinks out of pathways

– Extra Hand™ Cable Holder Maintains Order

– Waist High Ergonomic Design Reduces Technician Fatigue

The Speed Labeler™ is part of the overall Beast Cabling System CIS that includes The Beast Cable Management System™, The WireWolf Pathway Guide and Patch Panel Organizer™ and the Claw Anti-Twist and Tensile Pressure Equalizer™.

Specifications
